

## TELEGRAPHIC.

WINNIPEG, February 26.

Brome election occurs on March 12th. Manitoba legislature meets on March 10th. Patterson, secretary of state is elected over Cameron, in Huron, by 22 majority. Dr. Ferguson, Welland, and A. C. P. R. Landry, enter the senate for Niagara and Quebec districts.

The chimney of the Thornton mills, Check-beaton, England, fell yesterday killing thirteen employees and injuring twelve.

Appeals have been lodged in the supreme court in the Pontiac, Maskinonge, Bagot and South Grey election cases. They will be tried after the session.

WINNIPEG, February 26.

Burnett, conservative, was elected in East Simcoe by 25 majority.

Mercier has taken action against Pelletier for \$20,000 damages for libel.

The supreme court of New Brunswick has declared Baird member for Queen's. There will be no further appeal.

Bishop Lafleche, of Three Rivers, has published a wholesale denunciation of the Mercier administration, and advising the electors to vote against all Mercier candidates.

Parliament opened on Thursday. The speech from the throne was meagre and formal. The visit of the ministers to Washington arranged for the settlement of the boundary between Canada and Alaska, for the appointment of an international commission to devise means of preserving and increasing the supply of fish, and for reciprocity in case of wreck and salvage. Reports of the civil service commission and the commission on the manufacture of beet root sugar will be laid before the house. Measures will be provided to codify the criminal laws; for the redistribution of seats; for the establishment of the boundary of the Territories; for the amalgamation of the department of marine and fisheries; to amend the civil service act; to amend the acts relating to real property in the Northwest. A commission has been appointed to revise and improve the fishing regulations of British Columbia.

WINNIPEG, February 27.

Tarte will not contest Montmorency Quebec.

Hearn, conservative, is elected in Quebec West by 340 majority.

Vince, conservative, and Colter, liberal, are candidates in Carlton, N. B.

Therien and Dumas, both conservatives, are nominated in Montcalm, Quebec.

Carling, conservative, defeated Hyman, liberal, in London, Ont., by 107 majority.

The British steamers Forest Queen and Loughborough collided near Flamboro Head yesterday. The Forest Queen was cut completely in two and everyone of the 50 persons on board, except the captain, were drowned. The Loughborough was considerably damaged but not lost.

T. G. Pearce, M. Irwin and B. M. Walton, of the Parry Sound district, of Ontario, arrived on Thursday's train to make arrangements for the location of fifty families of settlers from the Parry Sound district who intend to remove to Edmonton in April. This is the colony that was reported to be on the way to Edmonton already. Mr. Pearce cannot understand how such a report could have got abroad, and certainly never gave any authorization for it. Since the visit of himself and Mr. Irwin, last summer, he has spent most of his time in holding meetings and organizing the colony, in the face of strong local opposition and strong competition from Manitoba and United States agents. Owing to the false and damaging reports that were circulated by opposing interests regarding this region he was not as successful as he would have been had he been aware of the facts, but has no doubt that the members of the colony will be largely increased as the result of his visit. The C. P. R. is offering every assistance to the movement, and the Grand Trunk is opposing it. Last fall a number of Parry Sound people went to Montana and others are going this spring. Messrs. Pearce and Irwin left on Friday for the Walker settlement in the Beaver hills, to look at that section of the district and will take a general look around before returning. Parties having places to rent would do well to let Messrs. Pearce and Irwin know of them before they leave, as they might arrange for tenants.

SUPERINTENDENT Griesbach, Inspector Chalmers, Staff-Sergeant Cooper, of the police force at Fort Saskatchewan, and F. Fane, of Beaver lake, left for MacLeod on Wednesday's train to attend the Horcher investigation.

## LOCAL.

FINE spring like weather again.

Not a single vacant house in town.

Snow is about a foot deep in this district. Supt. and Mrs. Griesbach left on a trip south on Wednesday's train.

LIEUTENANT-GOVERNOR and Madame Royal left for Regina on Wednesday's train.

MINSTREL performance in Fields' hall on Monday evening next. The best local talent.

FRESH eggs are coming in freely at 35c to 40c a dozen. Fresh butter is still very scarce.

Dr. Toffield, of Calgary, a former resident of Edmonton, arrived on Monday's train to remain a few days.

J. CAMERON shipped two cars of wheat to Toronto this week, one on Wednesday's and the other on Tuesday's train.

J. WALTER, South Side, has been very ill for a week or two past, from a form of rheumatism or rheumatic fever.

MR. and Mrs. F. Fane, of Beaver lake, arrived in town on Tuesday night and left on a visit to Lethbridge on Wednesday's train.

W. HALLIDAY, of Glasgow, Scotland, arrived on Monday's train, and intends to open a tailoring establishment in South Edmonton.

FRANCIS HEROD of New York and Michel Hausell of Gretna, Manitoba, arrived on Thursday's train looking for land for themselves and friends.

MRS. and Miss Hardisty returned on Thursday's train from an extended visit to Los Angeles, California. Master Percy Hardisty accompanied them.

Miss Macbeth, of Kildonan, Man., who has been visiting her sister, Mrs. Jas. Ross, at Edmonton, for some months, returned home on Wednesday's train.

Rev. E. B. Glass of Battle river Methodist mission arrived on Monday's train to secure medical attendance, as he is very ill. He is the guest of Jas. McDonald.

MRS. Snyder, wife of Inspector Snyder, of Calgary, returned home on Wednesday's train, after a short visit to her brother, W. Edmiston, and other relatives, at Clover Bar.

THE Calgary Herald says that the Calgary curlers reached home from Edmonton in good spirits and greatly pleased with their visit and with the treatment they received from the Edmonton curlers.

THE Regina Leader says that the applications for hotel and wholesale liquor licenses for the year are now closed. The number is very large and the amount to be realized will probably be about \$25,000.

REV. D. G. McQueen left on Wednesday's train to attend the meeting of the Presbytery of Calgary. He will be absent a couple of weeks. The usual services in the Presbyterian church will with will be conducted by W. D. Wilkie.

MRS. R. J. Hutchings of Calgary died on Friday, February 19th, after a short illness. Mr. Hutchings is a member of the firm of Hutchings & Riley, Calgary and Edmonton, and a brother of Alfred and T. G. Hutchings, Poplar lake settlement.

E. F. CAREY, of Norris & Carey, sustained a serious accident on Wednesday afternoon, by slipping on the step of his store and breaking one of the bones of his leg. He has suffered a great deal of pain, but was somewhat better on Friday afternoon.

THE dwelling occupied by O. H. Bush, Jasper avenue, was removed on Wednesday to the lot adjoining Larue & Picard's store, by D. C. Robertson. The building is used as a millinery store and the site is considered a better business stand by Mrs. Bush.

M. McLEOD, contractor for Fraser & Co.'s saw logs, was down from the lumber woods this week. He will finish getting out logs for a million feet of lumber in a week or two. The recent snow fall has made lumbering go more smoothly than in the early part of the winter.

LIEUTENANT-GOVERNOR ROYAL has let the contract of erecting a dwelling on the lots immediately south of those occupied by Dr. Royal's residence, H. B. property, to F. Peters, to be proceeded with at once. The building will be 26x40, 2 stories high and will cost about \$2,000.

CALGARY Herald: W. R. Lindsay is making a success of the Edmonton coal. He has already disposed of a large number of car loads. The coal lights quickly and burns with a great heat; and as there is more of it to the ton than of the other coal, and the price is only \$7, "Edmonton" is rapidly coming to the front as a favorite with consumers.

G. R. F. KIRKPATRICK, manager of the Imperial bank here, has been confined to his house by illness this week.

SIXTEEN freighters who left for the Landing with H. B. freight last week, returned from J. Gullion's place at the Two Lakes, about half way to the Landing on Sunday last. They found the snow between three and four feet deep beyond that point and the road impassable for loaded sleighs.

THE February number of the Manitoban, a Winnipeg Magazine which has reached its third issue is to hand. It shows considerable improvement over former numbers in its typographic appearance, and in the number and excellence of its illustrations. It has illustrated articles on British Columbia's cities, the Red River expedition, the buffalo, etc., etc. Altogether it is a most creditable publication. It deserves a good support and it is to be hoped that it will receive it. The price is only \$1 a year.

A. R. JAMES, Calgary's immigration agent in the east, reports that the London Free Press which interviewed him seemed to delight in perverting any statements he made regarding Alberta. The Free Press is one of the papers that is particularly strong on the iniquity of the grits in driving our people to the States, and yet when it has a chance to do a little towards inducing our people to remain in our own country it refuses to do it, and takes the course that tends most surely to drive them to the States. The Free Press it may be remarked is the organ of the minister of immigration. Further remark is unnecessary.

THE reports of cattle dying in Peace river need not alarm the cattle men of any other part of the world, or cause the establishment of a quarantine, no matter what the disease may be. There are not one hundred cattle in the whole district; and they are effectively quarantined by being some 300 miles distant from the nearest settlement, which is Edmonton, and with which there is no communication only by dog train in winter, or by larger row boat in summer. The cattle now there were driven overland through the woods some years ago, partly as an experiment and partly to fill a local demand; but it may be depended upon that beef will be a much higher price in the world's market before they will be driven back over the same route in order to be sold in that market.

James G. Turner, of Rockwood, Man., writes to the Winnipeg Tribune that sprinkling wheat with lime as a preventive of smut is unnecessary if bluestone is used. He says: "Dissolve one pound of bluestone in say half a gallon of boiling water, and stir until fully dissolved; then add 3 1/2 gallons of water, using the above with eight bushels of wheat, lay the wheat on the graining floor (or in a wagon box) flattening the top of the pile, pour on the liquid and commence turning before it reaches the floor, and continue turning until the whole is fully wetted, after standing about an hour, turn again, and in six or eight hours the water will all be absorbed and the wheat ready for sowing. This process we have never found to fail, and the quantity, namely one pound to eight bushels, is ample, if used properly."

The town of Rat Portage is to be incorporated under its present name.

The dismissal of employees on the Intercolonial railway is with a view of economizing without injuring the service.

The Mormon settlement in Southern Alberta is likely to increase largely in numbers during the coming season. They recently imported a grist mill.

British Columbia prices. Commercial February 22nd; Fresh eggs, 30c to 35c, lined 22c to 26c; creamery butter is in good demand and firm at 28 1/2c to 29 1/2c. There is any quantity of dairy in the market, and most of it is low in price with no demand. Cheese, 13 1/2c; dressed beef, 9c; hogs, 10c; mutton, 13c to 13 1/2c. Hogs have gone up in price and are scarce, the supply coming from the east. Mutton is scarce and is supplied from Oregon and the Northwest. Live stock prices are: Steers, 5c, cows 4 1/2c, hogs, 7 1/2c, sheep, 7c. Cattle are wintering well, there is a scarcity of feed, but there will be no loss of stock. Potatoes, \$16 to \$23 a ton. Other vegetables are supplied from the south.

## NEW ADVERTISEMENTS.

PUBLIC MEETINGS at Poplar Lake School House, on Wednesday night 2nd March and at Sturgeon River School House on Thursday night 3rd March. Mr. Prince will address these meetings.

**\$420.** Will buy the undivided half interest in 139 acres of land adjoining Hudson's Bay Company reserve. Offer open until Tuesday noon. Apply to T. BLACKWOOD, Jasper House.

**BOWN & PRINCE**, Advocates, Notaries, &c. Money to loan. A number of valuable properties for sale also Half breed and other scrips. Office next to Thomson's drug store.

ANTONIO PRINCE. JOHN C. F. BOWN.

## NOW ON THE WAY.

Seeders and Drills.  
Brush, Breaking, Stubble, Sulky and Gang Plows.  
Disc, Cutaway and Diamond Tooth Harrows.  
Waggons, Buggies and Road Carts.

## THOROUGHbred STOCK.

Having brought up a car load of young registered Shorthorns from Ontario I have a few Bulls and Heifers yet to part with at reasonable figures. Have also registered Shire Stallions and some good young Ontario mares in foal.

GEORGE H. BALLARD,  
Red Deer, Alberta.

**WILLIAM HALLIDAY**, late of Glasgow, Scotland, TAILOR, now at South Edmonton Hotel. First class workmanship and fit guaranteed. Finest assortment of goods in the Northwest Territories.

Dress suits and Ladies Riding Habits a specialty.  
Sole agent for Midnapore Woollen Mills.  
Wool bought.

## MEN'S READY MADE CLOTHING.

**GREAT DISCOUNT SALE.**  
Splendid opportunity of purchasing suits, and Tweeds, &c. at the  
**MANCHESTER HOUSE**, almost at cost,  
W. JOHNSTONE WALKER,  
Direct Importer of English Goods.

## PUBLIC NOTICE

Under The Territories Real Property Act.

Pursuant to the provisions of Section 119 of "The Territories Real Property Act," I the undersigned registrar of the Northern Alberta Land Registration District hereby give notice that after the expiration of thirty days from the giving of this notice I will issue to Alexander McDonald of the City of Winnipeg in the Province of Manitoba, Merchant, a provisional certificate of ownership for Lots number 45, 46 and 47 in Block number 2 in River Lot 12 of the settlement of Edmonton according to registered Plan 'D' in lieu of certificate of ownership numbered 209 dated 12th July, 1888, which has been lost.

Dated Edmonton, February 26th, 1892.  
GEO. ROY,  
Registrar N. A. L. R. D.

Beck & McNamara,  
Advocates for the Applicant.

**LOTS FOR SALE,**  
Lots in the vicinity of the C. & E. Railway Station on the following properties:

The Sache Estate.  
The Cameron Estate.  
The McLeod Estate, &c.

**30,000 ACRES FARMING LANDS FOR SALE**  
Several desirable improved farms in close proximity to railway station and Town of Edmonton.

**16,000 ACRE FARM** in BLOCK 360 acres under cultivation, excellent buildings and well watered.

For Prices and Particulars Apply to  
**WILLIAM WILKIE**,  
Real Estate Agent.

**THE EDMONTON BULLETIN** is published every Saturday morning, at the office, Main street, Edmonton. Subscription, Two Dollars per annum. Advertising rates—Standing advertisements, two dollars a line per annum; transient advertisements, ten cents a line for first insertion and five cents a line for each subsequent insertion. FRANK OLIVER, proprietor.

EDMONTON BULLETIN, FEB. 27, 1902.

#### IMMIGRATION.

With the approach of spring and the certainty of the arrival of a large number of new settlers the question looms up: "What are we going to do about it?" Are those of us who are established in the country, who have spent the best years of our lives here, and whose success in the future depends on the settlement around us of the largest possible number of industrious, intelligent and law abiding people, going to let matters drift, or are we going to take measures to secure desirable settlement where it will benefit us? It may be that settlements will come without our aid, but such has not been the experience in the past. The movement towards Edmonton is the result of the efforts that have been made during the past years by the present settlers in developing and demonstrating the capabilities and advantages of the region, and now that their efforts have been so successful that they have attracted almost world wide attention, the next thing in order is to reap what has been sown, by placing those who desire to come in the locations where they will be of most advantage to us, that is as close to us as we can get suitable places. This is to the advantage of the new settlers as well as those who are here and is the point to which our efforts should now be directed. A great deal can be done in this line at very little expense if it is undertaken in a proper way. The difficulty is to secure the joint action of all those who are interested. This can probably best be achieved by the formation of an immigration committee, composed of public spirited and enterprising men in town and country who will unite their efforts in acquiring information as to the great and many advantages of the district for farmers and the localities in which desirable land is available for homesteading, and in spreading this information wherever it is likely to have good effect. No matter how willing any individual may be to assist immigration, he can only give a small portion of his time or means to that end, and his efforts can only have a proportionately small effect. By all those who feel an interest in this matter matter uniting in an immigration committee, more work can be done for less money than if each man acted independently. At Prince Albert, an immigration committee has been working for a year past, and the town and country is assured of a good return for their expenditure of funds and energy in the arrival of a large number of first class settlers. Edmonton could not do better than follow Prince Albert's example in this matter and take strong measures to spread broadcast a knowledge of the advantages of this district, and then after people had been induced to come by these representations to prove to them satisfactorily that the representations made were correct. The C. P. R. is doing a great deal towards immigration to this district by issuing passes to people desirous of seeing it. These people come and go and may or may not be favorably impressed just as they may happen to have met some one who took interest enough in them to show them around, or did not happen to meet such a person. Such people are now coming in on every train. They only stay a day or two and at best can acquire but a very partial idea regarding the district. We should be in a position to post these parties thoroughly during their short stay with the fullest particulars regarding our soil, climate, resources and industries. This could be done at very little expense, but unless people interested combine it cannot be done at all. A great deal could also be done to assist parties of settlers on their arrival in making them comfortable temporarily and directing them where to go to get the land they want. The whole Northwest is waking up to the necessity of taking vigorous local action to promote or assist immigration, and if Edmonton does not bestir itself the tide

that now flows so strongly in its favor may turn in some other direction, and we all know from the experience of the past ten years what that means—simply stagnation.

Clover Bar.

CREAMERY VS. DAIRY.

The most recent market reports quote creamery butter at 27c to 29c in Victoria, B. C., and Manitoba dairy, that is farm-made butter, 20c to 22c, a difference of 7c a pound in favor of the creamery. When to the actual cash difference in price is added the advantage of the more ready sale of the creamery butter, the gain in the handling resulting from its more even quality, and the saving in labor in its manufacture, it becomes clear that there is nearly double as much money to the average farmer in the creamery as compared with the dairy process. Of course there is not always a difference of 7c a pound between the two kinds of butter, but the proportion of difference will probably remain about the same. Just as according to the quotations given creamery is now worth one-fourth more than dairy in the B. C. market, so it may be depended upon to remain. That is to say, a quantity of butter that would be worth a thousand dollars if made in a creamery, would only be worth \$750 if made in the farm dairy. But may be a farmer or farmer's wife will say, "We make just as good butter as any creamery can." Possibly you do, and when you have local customers who know that they will pay you just as much for it as they would pay the creamery. But when your customers will not take all that you are able to, and that it would pay you, to make, and you have to ship it to an outside market, no matter how good your dairy butter is, its price will depend upon the average quality of the dairy butter made in your district, and not upon its own quality. Your good butter is pulled down in price by your neighbor's bad butter, and you do not get as much for it as if it had been made in a creamery. Besides if there is any profit in butter making, you can make a great deal more with the same help by means of the creamery than on the farm. Another side of the question to the maker of good as well as bad butter is that when butter can be made most easily and cheaply it is lowest in price in the local market, and the farmer very seldom has the facilities for keeping it in perfectly good condition until the price rises. If made in the co-operative creamery it could be kept in perfectly good condition until the annual rise in price took place. In this Edmonton district we have the best dairying region in America, and we are nearest to the best market for dairy products in America, that is British Columbia. We are looking to the establishment of roller mills and the granting of lower railroad freights to boom the wheat growing industry in this district. All very desirable no doubt. But in these matters we must depend on outside capital and influences to help us. While this district cannot be excelled for wheat, it is still better for dairying, and we can, within ourselves put the dairying business on the most profitable footing. A creamery would not cost more than \$2,000 at the outside, and with good creamery butter, made from the milk of cows pastured on free grass or fed on free hay, or on the produce of land costing only the labor of cultivation, it would be strange indeed if there were not more money in dairying here than in wheat raising or than in dairying anywhere else in the world. Another thing is that the wheat raiser is and must always be at the mercy of the railroad. The invariable rule of the railway to charge all that the traffic will bear will always keep the wheat raiser's nose to the grindstone, while on dairy products, the selling value per pound is so infinitely greater than in the case of wheat, that the railroad cannot raise its rate in proportion to the difference in price. The establishment of creameries and the raising of hogs and cattle is the common sense way for the farmers in this district to meet the question of railway monopoly that faces them at the present time in the shape of high rates on grain. If anything is to be done in this line during the coming summer, now is the time to take action. A co-operative company can be formed, machinery got in and made ready for operation and shipped at or secured all in time for spring, and certainly we have plenty of farmers with sufficient means to operate such a company. If co-operative dairying pays better than any other system of farming in Ontario, as it certainly does, if well managed it must also pay best here.

FORT SASKATCHEWAN RIFLE ASSOCIATION.

The annual meeting of the Fort Saskatchewan rifle association was held on February 26th, when the following officers were elected for the ensuing year:

Dr. Royal, honorary president.  
Staff-Sergeant Joyce, president.  
Constable G. Ferguson, vice-president.  
Dr. Wilson, patron.  
F. F. Tines and Superintendent Griesbach, vice patrons.  
Council: A. Watt, C. D. Jarvis, W. Blythe, W. G. Ross, W. White, V. J. McGillicuddy, A. B. Lang, A. R. McLeish, W. R. Greig.  
W. R. Greig, secretary.

The best root sugar factory in the province of Quebec has been sold out by the shareholders.

RE SURVEYS.

A large extent of country in the vicinity of Edmonton is marked on the maps as surveyed. This survey was chiefly made from '82 to '84, a great deal of it in the winter time. Some of it was carelessly done, some of it was accurate and some inaccurate. Some mounds were built and some were not. Some lines were staked and some were not, some were not even cut out. Whether well or ill done mattered little until the rush of settlement commenced last year, and then all the imperfections of the survey were brought out. Read-a, in the years that have elapsed since 1884, in this moderately moist climate and region of soft soil and quick growth, the poplar stakes have in many cases rotted or been burned down, the lines cut through woods have grown up so as to be difficult to follow and the action of the rain and frost has very generally melted down the mounds. To uninterested parties these matters may seem the veriest trifles, but to the man looking for a farm, they are of the highest importance. If all the land were open for homestead settlement it would not matter so much, for if a man was mistaken as to the number of his section it would make very little difference; but when it is necessary, as it is, to keep off the alternate reserved sections, it becomes of the highest importance that a man should know exactly where his lines and what his numbers are. Men looking for homesteads are generally poor and cannot afford to hire an expert to go out with them to pick up and cut out blind lines, chain distances and interpret surveyors' hieroglyphics, and if they cannot definitely locate their land they are apt to become discouraged and may even abandon their search, or at least be put to serious inconvenience. It is the duty of the government, if it desires to promote the settlement of this region to lose no time in causing a re-survey of the most eligible townships at once. This would not be nearly as expensive an affair as the first survey, as a professional surveyor would have no difficulty in finding the lines and locating corners. It would merely be a matter of brushing out the lines and re-staking and re-mounding at the corners of the quarter sections along them. That the government is already aware of this necessity is proven by the action of the Indian department taken in regard to the South side Indian reserve before it was offered for sale by auction last spring. The land in this reserve was subdivided at the same time as the surrounding country, and of course the survey was in the same state. The department caused the line to be recut and the corners to be restaked before opening it for sale. If this was necessary in the case of land being offered for sale it is quite as necessary in the case of homestead lands.

In this connection it may as well be pointed out that with the increase of population new directions have been given to the course of settlement, and that many unsurveyed townships which are very well situated are now found to contain very desirable land. This is particularly the case in regard to townships 47 to 51, range 22, and the 4th, 5th, 16th, and indeed applies to the whole of the Beaver hills district, ranges 10, 20, 21, 22 and 23, formerly thought useless, but now found to contain some of the most desirable land quite close to the railway line. It also applies to townships 53 to 57, in ranges 1 and 2 west of the 5th meridian. Also to township 56, range 16, west of the 4th meridian, where an English half-breed settlement of some sixteen families, has been formed around Egg lake. There is also a fine tract of land around the Two lakes on the Athabasca Landing trail, about township 60, range 24, that should be surveyed. It is a fine tract, situated so high that the interior department will attend to this matter promptly, for although enough of the surveys remain to permit of thousands of people finding land, it is in the interest of every one that the first settlers should be able to get their land as much within the present settlement and as close to the railway as possible, and the re-survey of the old townships and the new survey of new townships would be of in valuable assistance towards that end, and would do away with the slightest necessity for land guides of any kind.

CURLING.

Rev. D. G. McQueen's rink, which won the gold medal in the schedule of games, played a points competition for the medal on Tuesday with the following result:

Joe Goehrig—12.  
Rev. D. G. McQueen—16.  
Rev. C. Cunningham—22.  
E. Young—28.

The medal was presented by Mr. McQueen, who is president of the club, and Mr. Young will wear it.

The Prince of Wales is likely to visit Canada in May, and go to the Pacific coast.

The returns show a decrease in Chinese immigration to British Columbia.

The Gladstone, Manitoba, Times has ceased publication from lack of support.

There will be no further colonization in Canada this year.

## ORDINANCES.

The following ordinances passed at the late session of the Northwest assembly were assented to by the lieutenant-governor on January 25th, 1892:

- Amending the medical ordinance.
- Respecting deputy clerks and deputy sheriffs.
- Amending the game ordinance.
- Amending the legal ordinance.
- Amending the prairie fire ordinance.
- Repealing the ordinance respecting fees in summary trials.
- Authorizing the formation of dairymen's associations in the Northwest.
- Amending and consolidating the ordinance respecting fire districts.
- Amending the joint stock companies ordinance.
- Respecting the sale of intoxicating liquors and the issue of licenses therefor.
- Respecting benevolent, provident and other societies.
- Protecting the public interests in rivers, streams and creeks.
- Respecting chemists and druggists.
- Amending the brand ordinance.
- Amending and consolidating the herd ordinance.
- Amending the municipal ordinance.
- Amending the fence ordinance.
- Respecting the protection of property.
- Amending the school ordinance.
- Providing for arbitration.
- Giving Joseph Henry Wrigley a certain status as a student-at-law.
- To declare the incorporation of the Salcoate dairy association valid.
- Legalizing a certain purchase of lands by the town of Calgary.
- Incorporating the synod of the diocese of Calgary and the parishes of the said diocese.
- Incorporating the ranchmen's club of Calgary.
- Giving Edward Arthur Craven McErg a certain status as student-at-law.
- Enabling Wm. Laurie to be enrolled as an advocate of the Territories.
- Incorporating the Assiniboia club of Regina.
- An ordinance for granting to the lieutenant-governor certain sums of money to defray the public expenses of the Territories for the half year ending 30th June, 1892, and for other purposes relating thereto.

Ottawa telegram to Montreal Star: T. G. Pearce, representing the Parry Sound Colonization Society, recently had an interview with the minister of the interior with reference to the inauguration of a movement which may have an important bearing on the settlement and development of a section of the Northwest which has only recently been opened up by railway communication and which bids fair to become one of the most important wheat producing sections of our great wheat country. This is the Edmonton district, which is now brought within reach of the wheat consuming centres by the completion of the Calgary and Edmonton railway. The movement is nothing less than the transfer to this region of the population now living in the Parry Sound district.

A deputation of the Winnipeg grain exchange recently interviewed the officials of the traffic departments of the C. P. R., the N. P. R. and the M. & N. W. R. concerning the questions involved in the matter of freight rates on seed wheat. It was thoroughly discussed, and it was agreed, subject in the case of the N. P. R., to confirmation by the authorities south, that seed wheat should be carried free, from any station to any other station on the above named railways. The arrangement will, of course, be guarded with certain conditions specifying the quality of the wheat to be thus forwarded, and requiring declarations from consignees that it is to be used for seed only; these details will be duly formulated and published for the instruction of those interested.

The agitation in England against the admission of Canadian cattle without quarantine has been helped on by a telegram from Ottawa to the London Standard which says that a disease showing every symptom of pleuro pneumonia is playing havoc on the cattle ranches in the Peace river district. Dr. McEachran, government quarantine officer, says that the trouble is with a herd of about 25 milch animals in the Peace river district, the property of the Hudson's Bay company, and that they are affected with tuberculosis. This explanation was telegraphed to England.

A new board of education for the Northwest Territories has been organized. It consists of: The Bishop of Saskatchewan, Rev. Father Ladue, Hon. Justice Rouleau, Rev. Dr. McLean, Capt. Craig, W. J. Chisholm, principal of Union school, Regina, A. H. Smith, principal Union school, Mooseomin, Messrs. Chisholm and Smith are new members.

Messrs. R. Casemy, of Euclid, Polk county, Minnesota, and W. G. Laidley, of Manvel, Grand Forks county, North Dakota, arrived on Monday's train to look over the Edmonton district with a view to settlement or investment. They left on Wednesday's train.

MUNICIPAL NOTES.

The following are included in the powers of the town council:

(9) Taking the census of the municipality;  
(10) Public morals, not otherwise provided by law;

(11) Public health; the creating of a board of health and defining its duties;

(12) Sub-dividing the municipality into wards, and providing for election of one or more councillors for each ward; but no council shall have power to sub-divide the municipality into wards, unless the members thereof have been elected on a revised assessment roll;

(13) Laying out, opening, changing, closing, building, extending and maintaining highways, roads, bridges, streets, alleys and by-ways, and to expropriate lands therefor;

(14) The erection of halls, look-ups, weigh-houses, markets and such buildings, as may be beneficial to the municipality, and to expropriate lands therefor;

(15) The establishment and regulation of public markets and imposition of penalties for light weights, short measurement and any breach of contract in public markets, and restraining selling on the streets;

(16) Establishing municipal scales for weighing or measuring, and compelling the weighing or measuring thereon, or thereby of anything sold by weight or measurement, in the public market, and establishing and regulating the fees to be paid for weighing or measuring on such scales, and compelling dealers in coal to weigh upon such scales all coal sold by them, if requested so to do by the purchaser, at the purchaser's expense;

(17) Purchasing, controlling, erecting or establishing parks and cemeteries;

(18) Erecting lamp posts and lamps, and providing for lighting the municipality or parts thereof;

(19) Making and regulating the use of public wells, cisterns and fountains;

(20) Regulating the size and number and construction of doors in churches, theatres and halls or other buildings used for places of public worship, public meetings or places of amusement, and the street gates leading thereto, and also the size and structure of stairs and stair railings in all such buildings, and the strength of beams and joists and their supports;

(21) Controlling and constructing sewers, drains, ditches and water courses, and regulating and preventing the obstruction of the same; building and repairing sidewalks, preventing the loading, riding or driving of cattle or horses thereon, and compelling persons to remove and clear away all snow, ice and dirt and other obstructions from the sidewalks adjoining the premises owned or occupied by them;

(22) Building waterworks and regulating the same, but not granting exclusive privileges for the same;

(23) Authorizing any corporate gas or water or gas and water company to lay down pipes or conduits for the conveyance of gas and water or both under streets, squares and other public places, subject to such regulations as the council may make;

(24) Contracting with any water works or water company for a supply of water within the municipality for the purposes and other public uses from hydrants or otherwise, as may be deemed advisable, and for the renting of any such hydrants for any number of years not to the first instance, exceeding ten, and renewing any such contract, from time to time, for such period not exceeding ten years, as such council may desire, and every such council shall also have power to purchase hydrants necessary for any of the purposes or uses aforesaid, and also to erect the same; and purchase or renting for a term of years or otherwise fire apparatus of any kind, and fire appliances and appliances belonging thereto respectively;

(25) Compelling the removal of dirt, filth, dust or rubbish off the highways, streets, lanes, alleys or by-ways depositing the same, or by the owner or occupant before whose property it is, or in default, removing the same at his expense; compelling the removal of anything deemed dangerous to the lives of the inhabitants; and preventing and regulating the construction of privy vaults, outhouses, closets, and providing for keeping the same in a proper state of cleanliness and repair; preventing or regulating the erection or continuance of sloughs or houses, gas works, factories, distilleries or other manufactories or trades which may prove to be nuisances; and preventing and abating nuisances generally;

(26) Preventing the numbering of streets or other public places by vehicles, agricultural implements, lumber and other articles;

(27) Regulating the rate or pace of riding or driving within the municipality or any part thereof;

Reported that Thomas McGreevey retired from the cabinet in Quebec West, owing to the solicitations of Edward Blake, and that he has given very interesting documents into the hands of the liberals.

An Indian woman died recently at Dog Lake, Indian reservation on the shores of Lake Manitoba, who weighed 800 pounds. She was 47 years of age.

## THE BY-ELECTIONS.

The result of the recent by-elections in Ontario are certainly a surprise to both parties. The liberals counted confidently on large gains as the result of the disclosures of corruption at Ottawa and the conservatives had very little hope of doing more than holding their own. So far the conservatives have gained largely in both numbers and majorities, the crowning victory being the defeat of M. C. Cameron in Huron; by a non-resident, J. C. Patterson, the new secretary of state. Cameron was an able man, a popular man, a local man and a good electioneer, and yet he was beaten by an outsider, of certainly not equal ability in any particular. An increase of the majority of the present government comprising so many unscrupulous politicians, as has been proven, cannot be looked upon by anyone as an unmixed benefit. However good their policy while in office, there can be no question that their methods of getting there and staying there are discreditable to themselves and destructive of the public morals of the country, besides being a heavy drain on the treasury. The present cabinet does not contain any members of towering ability, therefore if they win they do so not by their own strength, but by the weakness of their opponents, either in ability or methods or policy. There can be no question of the individual ability of the leading members of the opposition, their methods of electioneering do not lack in spirit or force, therefore their weak point must be in their policy, that is in the advocacy of commercial union with the United States. As long as they could hold out a reasonable hope to the people of Ontario that the farmers could be secured free access to the markets of the United States for their horses, their barley and their eggs, without imperilling their market in Britain for their cattle, their wheat and their cheese, and without injuring their present political status or imperilling their prospects of future independence, they had a fair prospect of capturing the province. For advantages thus to be secured to the farmer meant an increase in the prosperity of all classes. But when it became apparent—as it certainly has—that the advantage desired could not be secured without the sacrifice at least of our advantageous trade relations with Britain, and indeed without the sacrifice of our political independence, the commercial union policy lost its force, and people saw that they had been led in a wrong direction. They naturally felt and feel aggrieved at the men who, for four or five years, have led them in chase of such a will-o-the-wisp, and now when the opportunity arrives they vote against them. The liberal leaders have asked to be judged on their policy and they are now being judged on it. While the people do not like to trust the Langevins and Chapleaus who will steal thousands of dollars of hard cash, they still less like to trust men whose policy would land them either in commercial or political ruin. The adverse result of these elections is generally ascribed by the liberal papers to the apathy of the people. They are really due to their keen business instinct and their unswerving loyalty. The BULLETIN was one of the few so-called liberal papers that opposed commercial union from the first, and it cannot now express regret at the overwhelming defeat of those who thought to ride into power on what was a policy of either folly or treachery.

## SOCIAL.

A social was held in the Presbyterian church, on Monday evening last, in aid of the church funds and was well attended. Rev. D. G. McQueen, chairman. The following programme was rendered: Organ solo, Miss Maime Ross; Song, "Queen of the meadows," Mr. Michael; Instrumental trio, selections, Mrs. W. Johnstone Walker, organ, T. Hurston, violin, R. Andrews, concertina; Song, "The Diver," Mr. Randall; Recitation, "The Settler's Story," by Will Carlton, W. D. Wilkie; Song, "The Quaker," Mr. Becher; Instrumental duet, selections, Birdie and Gilbert McKay, tin whistle; Song, "Committed to the deep," Mr. Fortin; Intermission and refreshments. Song, "Jack o' Hazeldean," W. Wilkie; encore, Song, "Willie brewed a peck o' maud," Song "O Fair Dove, O Fond Dove," Mr. Fortin; Reading, "A Bunch of Primroses," W. Johnstone Walker; Instrumental trio, selections, Mrs. W. Johnstone Walker, organ, T. Hurston, violin, R. Andrews, concertina; Song, "When the tides comes in," Mr. Randall; Selections on tin whistle, Birdie McKay; Auld Lang Syne by the audience.

The Commercial says that 323 miles of all-way was completed in Manitoba and the Northwest in 1891, and 79 miles graded the addition. Only about 150 miles was constructed in Eastern Canada during the year.

APPLICATIONS for the office of Assessor and Collector, for the Municipality of the Town of Edmonton, for the present year, will be received by the undersigned, till 12 o'clock noon, on Wednesday the 24th instant. Salary, \$150 per annum. The applicant receiving this appointment will be required to furnish Bonds to the extent of One Thousand Dollars.

A. G. RANDALL,  
Acting Clerk.

Edmonton, 10th February, 1892.

Pursuant to the provisions of "The Territories Real Property Act" Chaptered 51 of the Revised Statutes of Canada, Section 119, I the undersigned Registrar of the North Alberta Land Registration District, hereby give notice that on the fourteenth day of March, A. D., 1892, I will issue to Henry W. McKenney of the settlement of Saint Albert, in the District of Alberta, Merchant, a Provisional Certificate of Ownership for the Southwest one quarter (1) of Section thirty-four (34) in Township fifty-four (54) in Range twenty-five (25) West of the fourth (4th) Principal Meridian in the District of Alberta aforesaid in lieu of certificate Number 491, which has been lost.

Dated at Edmonton this 10th day of February, A. D., 1892.

GEO. ROY,

Registrar of N. A. L. R. D.

S. S. & H. C. TAYLOR,

Solicitors for Applicant.

## FOR SALE.

IMPORTED PEDIGREE CLYDEDALE STALLIONS AND HEAVY EASTERN BROOD MARES.

The Canadian Agricultural Company have for sale the following Clydesdale Stallions: PRIME MINISTER, by Salisbury (3161) out of Jess of Moorhall (5000).

BOLD DOUGLASS, by warrior Prince (4776) out of Bramble (5768).

MERRYTHOUGHT, by Star and Garter (2432) out of Jess of Moorhall (5307).

The above horses are rising six, are all successful stock getters, and are for sale only on account of the company being able to spare them through further concentration in their breeding arrangements.

In addition to the above stallions the Company can spare a number of heavy Eastern brood mares, all warranted good workers and all served by Pedigree Clyde Stallions. These are for sale to make room for young stock coming on to take their place.

For further particulars apply to,

THOMAS STONE,  
General Manager,  
Calgary, Alta.
